PROFESSIONAL SUMMARY

Full-stack software developer with hands-on experience building web applications, mobile apps, SaaS platforms, and e-commerce solutions. Proficient in front-end and back-end development, with additional skills in mobile app development (published on the App Store) and game development using Godot. Combines a background in education and business administration with strong technical expertise to deliver user-centered, scalable products. Available for freelance gigs, contract work, or full-time opportunities.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, Node.js, HTML5, CSS3, React (learning), Python (basic)

Back-End & APIs: Express.js, RESTful APIs, Stripe integration, server-side logic

Mobile Development: iOS/Android app development, App Store published titles

Game Development: Godot Engine (GDScript), 2D/3D game mechanics, interactive experiences

Tools & Platforms: Git/GitHub, Responsive design, Wireframing/UI design, Stripe, Shopify, SaaS architecture

EXPERIENCE

Freelance Software Developer | [Independent / Remote](#)

Remote • 2024 – Present

- Develop and maintain custom websites, SaaS platforms, and e-commerce stores for clients across multiple industries.
- Published multiple mobile applications on the Apple App Store, managing full development lifecycle from design to release.
- Built Ask Trading, Inc. website for overseas inventory redistribution and Supplier Relations US, LLC. for mobile app promotion.
- Integrated Stripe's secret key payment flow for secure server-side transaction processing.
- Actively source freelance gigs online, delivering responsive, modern web experiences with animations and polished UI/UX.
- Apply wireframing and design principles to create professional, brand-consistent presentations for clients.

English Teacher | [Various Institutions](#)

Taiwan • 2015 – 2018

- Designed and delivered structured lessons for students across multiple proficiency levels.
- Created individualized learning plans, developing strong communication, empathy, and adaptability — skills directly applicable to user-centered product development.
- Managed classroom environments and led team activities, building leadership and organizational skills.

PROJECTS & PORTFOLIO

Personal Developer Portfolio <https://redsystem.dev>

Full portfolio showcasing live projects including SaaS applications, online retail stores, and client websites. Built with responsive design and modern web standards.

Mobile Apps — Apple App Store

Multiple published iOS applications available on the App Store. Handles complete development pipeline including UI design, coding, testing, and submission.

SaaS Web Applications

Built and deployed multiple SaaS websites serving real users, incorporating subscription logic, user authentication, and scalable architecture.

E-Commerce Platforms

Developed online retail stores including a store for walkers/footwear and client storefronts with product management and payment processing.

Godot Game Projects

Created interactive games using the Godot engine, exploring 2D mechanics, GDScript, and game design principles as an ongoing personal development focus.

EDUCATION

Associate of Arts — Business Administration | [Mt. San Antonio College](#) *Walnut, CA* • 2013

Relevant Coursework: Project Management, Communication Skills, Economics
